

# CHIAMAKA UYANNA

## FRONTEND DEVELOPER

[in LinkedIn](#) | [+2348100802635](#) | [✉ chiamakauyanna@gmail.com](#) | [Github link](#)

### PROFESSIONAL SUMMARY

Frontend developer with a strong focus on translating designs into responsive, user-friendly web interfaces. Experienced in implementing UI from design specifications, collaborating with designers and backend developers to deliver clean, reliable frontend solutions. Strong in hands-on development where visible output and usability matter.

### SKILLS

**Front End:** HTML5 | CSS3 | JavaScript | Typescript | React.js | Next.js | TailwindCSS

**Back End (Supporting / Integration Knowledge):** Python | Django | PostgreSQL | Node.js

**Tools:** Git | Github | Figma

### WORK EXPERIENCE

#### Topicaltest Limited

#### Frontend Developer (Contract)

Oct 2024 – Aug 2025

Topicaltest Limited develops educational web platforms and exam preparation tools, enhancing accessibility and learning outcomes for students globally.

Technologies: Next.js, WordPress, JavaScript, TailwindCSS

- Built and maintained scalable frontend features for educational platforms, contributing to a 30% increase in user engagement.
- Implemented UI improvements and interaction enhancements that led to a 25% improvement in user satisfaction, based on internal feedback.
- Improved frontend responsiveness and user experience, contributing to a 40% reduction in page load time, especially on mobile devices.
- Collaborated with designers, product managers, and backend developers in a remote, agile environment, delivering features within sprint timelines.

#### Frontend Developer — Client & Product Projects

Mar 2021 – Sep 2024

Technologies: HTML5, CSS3, JavaScript, React.js, Next.js, Git

- Designed and developed responsive, production-ready user interfaces for multiple clients and personal web applications.
- Converted Figma and design mockups into pixel-accurate, reusable React components, improving development speed and consistency.
- Built interactive frontend features and integrated APIs to support dynamic, user-facing functionality.
- Improved accessibility, SEO, and cross-browser compatibility, resulting in better usability and wider audience reach.
- Managed version control, code reviews, and deployments using Git and GitHub, ensuring stable releases and clean commit history.
- Worked independently and collaboratively, demonstrating strong ownership, problem-solving skills, and attention to UI/UX detail.

### EDUCATION

Ahmadu Bello University, Zaria, Nigeria

Delta State University, Abraka, Nigeria

MSc. Public Health (Ongoing)

B.Sc. Health Education

Jan 2023 - Present

Sep 2017 - Mar 2022

### Certifications

3MTT Software Development (2025)

ALX Backend Development Track (2025)

ALX ProDev Frontend Development Track (2025)

ALX Frontend Development Program (2024)

Frontend Web Development - freeCodeCamp (2023 - 2024)

Accenture Data Analytics & Visualisation (Forage, 2023)

Business Analytics with Excel (2022)

Jobberman Soft Skills (2020)

### PROJECTS

#### StackTrack

#### Frontend Web Developer

Sep 2025 - Present

Frontend-Focused Application, StackTrack, a personal project management platform that helps users efficiently track projects, stages, and tasks, with real-time analytics for informed decision-making.

- Designed and built a responsive, animated frontend using React, Tailwind CSS, and Framer Motion, focused on usability and clarity.
- Implemented intuitive UI flows for project, stage, and task tracking, improving productivity and user comprehension.

- Integrated frontend components with APIs to support real-time progress insights and analytics.
- Backend implemented with Django and PostgreSQL as supporting infrastructure, with primary focus on frontend architecture and user experience.

## [Pollify](#)

### Frontend Web Developer

Mar 2025 - Present

Developed Pollify, a frontend-focused interactive polling platform with real-time analytics.

- Led frontend development for an interactive polling platform using React, Next.js, and Tailwind CSS.
- Built clean, responsive interfaces for poll creation, voting, and results visualization.
- Collaborated with contributors during early development, owning frontend structure and UI decisions.
- Later extended the project with backend functionality to support application logic, while maintaining frontend performance and UX as the core priority.
